## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see page 3, filed 2/11/04, with respect to claims 1 and 11 have been fully considered and are persuasive. The rejection of claims 1,2, 4, 6-15 has been withdrawn.

### ***Allowable Subject Matter***

2. Claims 1,2,4,6-15 are allowed.

3. The following is an examiner's statement of reasons for allowance: Regarding claim 1, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which at least include a charge amount detection circuit shares a plurality of capacitors that are connected to each other in parallel as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
